

Tailored monthly legislative update for AMMA members

AMMA's Policy team can tailor a legislative update specifically for your business to ensure you are kept up to date on the myriad of state and federal legislative and regulatory developments that will impact on your workplaces. Key areas that can be included in your monthly update are:

- industrial relations (including tracking each wave of reforms to the Fair Work Act);
- occupational health and safety (including regular updates on the progress of national harmonisation);
- workers' compensation;
- discrimination, harassment and bullying;
- building and construction workplace reforms;
- skilled migration;
- training and skills development;
- employment taxation and superannuation; and
- shipping and maritime reforms.

The update will cover important developments in selected areas including:

- legislation (tracking it from the announcement stage all the way through to parliament and when it becomes law);
- regulations, codes of practice and guidance material;
- significant court and tribunal decisions;
- important government announcements;
- inquiries by government or independent bodies;
- changes to the indexing of wage-related thresholds;
- key appointments and the establishment of new panels and tribunals; and
- important global developments.

Key benefits to AMMA members

The update gives you ready access to important legislative and regulatory developments that will impact on your business's compliance activities. It acts as an early warning system for proposed legislation and regulations, giving your business maximum time to prepare for the changes. Your update will house in a single document key developments across a range of workplace reform areas and can be used as a handy reference tool for your business. Your update will also contain hyperlinks to further information so that you can track the progress of bills through parliament throughout the month.
